

YOU
Sound
WORSE
THAN YOU THINK.

Most people have never truly heard themselves speak — and the gap is bigger than you'd expect.

YOU SAY

"like"

14x

PER 2 MINUTES.

And you have absolutely no idea. But everyone listening does.

A PAUSE

sounds
POWERFUL.

AN "UM"

sounds
UNCERTAIN.

SMART PEOPLE

STRUGGLE TO

*sound
smart.*

The ideas are there. Speaking under pressure is a skill — one almost nobody practices.

05

70%
OF PEOPLE

experience communication apprehension. Fear of speaking ranks above heights, spiders, and death.

THE SWEET SPOT

130

160 *wpm*

Too fast signals anxiety. Too slow loses the room. Most people have no idea where they land.

*I might be wrong,
but...*

**SOUNDS
UNCONVINCED.**

Hedging kills your credibility before the point
even lands.

11:10 T

5 MIN
a day

BEATS 2 HRS ONCE A MONTH.

Short daily reps with feedback rewire your defaults faster than any crash session.
